# Anti-Gravity Boots "GraviStop Turbo"

**Product Code:** ACME-BOOT-G9
**Category:** Footwear & Personal Transportation
**List Price:** $1,299.00

## Product Overview

Specialized athletic footwear equipped with negative gravity vector soles. Designed for rapid movement across walls and ceilings, as well as executing vertical jumps up to 15 meters. Features a built-in dynamic ankle stabilization system.

## Technical Specifications

- **Maximum Operational Ceiling:** 15 meters above ground level (safety cutoff engages beyond this height).
- **Maximum User Weight:** 110 kg.
- **Braking System:** Pneumatic impact cushions embedded in the heels.
- **Charging Time:** 30 minutes (standard outlet or USB-C SuperCharge).

## Warranty Conditions & Risks

- Warranty does not cover loss of footwear resulting from accidental atmospheric launch caused by ignoring altitude warnings.
- Do not use near resonant neodymium magnets or heavy concentrations of anvils.

## Frequently Asked Questions (FAQ)

- **How do I walk up a brick wall in these?**
  Turn the side dial to "WallRun" mode and maintain an initial approach speed of at least 12 km/h.
