Pocket Hole "Portable Hole v4.2"

Product Code: ACME-HOLE-2D
Category: Spatiotemporal Applicators
List Price: $799.50 (Pack of 3)

Product Overview

A two-dimensional disk crafted from dense dark matter. When applied to any flexible or rigid surface (walls, ground, safes), it instantly forms a physical transit tunnel or cavity up to 500 meters deep.

Technical Specifications

- **Unfolded Hole Diameter:** 1.80 meters (fixed, non-adjustable).
- **Folded Diameter (Transport):** 5 cm (folds like an envelope).
- **Maximum Transit Load:** No mass limit.
- **Edge Thickness:** 0.00001 mm.

Critical Legal & Safety Warning

- **STRICT PROHIBITION:** Never place a Portable Hole v4.2 inside another Portable Hole. Doing so creates a local micro-singularity, collapsing the room into an unmapped dimension.
- Do not use on body of water (causes immediate reservoir drainage).

Frequently Asked Questions (FAQ)

- **How do I peel the hole off a wall?**
  Simply pull the red tab on the outer edge. The hole will collapse back into a small disk, leaving the original surface intact.
